A CYCLE OF MURDER.

GAR SQUARE.

A wave of murder—an epidemic of bloodshed-a cycle of crime! Call it which you to the violent taking of his own life or anwork while Spring's smile and promise has been among us. This is what has an outrage as this? placed on the record of sunny yesterday the stories of tragedles so cruel and so ate surroundings, and how the shadow of ment. their presence in the land reached out to other cities and spread its blight there.

Read murder's record first : In a Hobo ken tenement a fiery Neapolitan follows: up a family quarrel of the early evening by compassing the midnight murder of his wife's mother, the death-dealing stiletto his weapon Detected in the crime by his brother-in-law. W fearful duel with pistols ensues, and thomurderer is shot and stabbed to death-a quick vengeance for his deed. Change the scene to a switch tower, near Brooklyn, and a signalman is found fatally wounded by an unknown assassin, whose work the night has covered. Then there is a scene in an uptown district the metropolis-a game of cards, appearance of intruders, a quar a dagger blow, murder again triumphant. In Mulberry street there is yet another episode, where murder and mystery combine. A man is found dead with jagged wounds in the head laying bar his skull and with nothing to lead towards his murderer.

Then the suicides: A man and a woman are found dead in each other's arms at the their couch, a flow of deadly illuminating gas the means of their destruction; a clubman is discovered dead in his bed at the club, an empty landanum bottle and morphine pill box by his side; a descried wife throws herself from a Broome street tenement window to meet fatal injuries on the walk below; a barge captain, suffering from delirium, cuts his throat at a Jersey City pier; a despondent laborer, bereaved of wife and child and prostrated himself by the grip, hangs himself at his Williamsburg

All these are records of trazedy in and about the metropolis, and they do not even there. Add to them the list from abroad : An uncle's death at his nephew's bands, in a Rhode Island village; a planter's it may rain-Gloom! murder by a Mississippi negro with a sho gun; the heating and shooting to death of a Rochester N. H., housekeeper by her employer's father; the fatal shooting of two other men and himself by an Oldtown, Md. clerk; the mystery at Windsor, Conn., of a young woman found deat in a meadow

But the pencil pauses here. The ghastly relations seem almost without end. The heart is sick in their contemplation. Why was such a record made in bright Spring days? What philosopher-what wise man of any craft can solve the riddle of this cycle of crime and bloodshed ?

IT CLOSES TOO EARLY.

The success of the flower market is all that was expected. There is no reason why it should not become as charming a feature in the list of city attractions as are the flower mars of Paris and London. But there is one obvious improvement which should be made at once. It should be kept open all day, or at least all the
